

# Haematology Training

## Sysmex X-Series Operator Training

### **Separate courses are available for XE-2100 and XT-1800i/2000i.**

An interactive 3 day training course directed towards the needs of the new X- series operator to instill confidence in daily use and routine maintenance of the analyser.

Information on the principles of all measuring channels and result display is covered prior to hands on experience on the analyser. Topics covered include:

- Technology principles and result interpretation
- Analyser components & software
- Routine operation (startup, shut down, modes of sample processing)
- Quality control (setup, routine use, interpretation)
- Analyser settings and data storage
- Scheduled and non-scheduled maintenance procedures
- Precision and calibration functions

**Dates:** XE-2100 28<sup>th</sup> - 30<sup>th</sup> April 2010  
XT-1800i/2000i 8<sup>th</sup> - 10<sup>th</sup> September 2010

**Time:** 9:00am to 5:00pm

**Location:** RDNZ Training Laboratory  
Roche Diagnostics  
15 Rakino Way  
Mt Wellington  
Auckland

**Trainer:** Alison Rhodes or Colin Day

**CPD Points:** 16 points per day under the CPD Programme

**Cost:** \$900.00 + GST

### **Travel/Accommodation:**

Costs relating to any travel and/or accommodation required are not included. Roche Diagnostics can arrange flights and accommodation at Waipuna Hotel and charge back.
