New Molecular Diagnostics Dangerous Goods List

As of January 1, 2008, Roche Diagnostics NZ has updated their warehousing and ordering system software to the global standard (SAP). Due to this change, goods are now classified under the IATA guidelines, which means that some items previously not classified as dangerous goods (DG), now fall into that category.

Dangerous goods items require specialised couriers, and are not able to be routinely sent by a same-day courier. This means that delivery times can be longer for DG items. Please find the list of molecular diagnostic items classified as dangerous goods on page 2 of this bulletin.

We apologise for any inconvenience. Please contact us on Techline if you would like to discuss this further, or require any additional information.

MagNA Pure Products	
MPLC DNA Isolation Kit I	03003990001
MPLC DNA Isolation Kit I Large Volume	03310515001
MPLC DNA Isolation Kit II	03186229001
MPLC RNA Isolation Kit III	03330591001
MPLC Total NA Isolation Kit Large Volume	03264793001
MagNA Pure Compact Nucleic Acid Isolation Kit I	03730964001
MagNA Pure Compact Nucleic Acid Isolation Kit I Large Volume	03730972001
MagNA Pure Compact RNA Isolation Kit	04802993001
